

HP Web Jetadmin PC printer discovery plug-in 2.0

The HP Web Jetadmin PC printer discovery plug-in 2.0 provides inventory data about locally connected (USB or parallel) printers to help IT administrators conduct more complete asset management.

Productive

- **Save time and energy.** Gather asset inventory data about USB and parallel-connected printers at the click of a mouse—eliminating the need to walk from desk to desk, inefficiently collecting data.
- **Create reports.** Export inventory data about locally connected printers to create your own reports.

Simple

- **Enjoy easy installation and use.** Extend the capabilities of HP Web Jetadmin with an easy-to-use plug-in that discovers USB and parallel-connected printers for Windows® 98 SE, 2000, and XP.
- **Protect your IT investment.** This time-saving plug-in integrates seamlessly with HP Web Jetadmin 8.1. There is no need for reinstallation, requalification, or retraining.

Balanced deployment

- **Understand your printing environment.** Inventory data about locally connected printers provides a more complete and accurate picture of your printer assets.
- **Increase efficiency.** With an improved understanding of your entire printer inventory, you can better support all of your printer assets, allowing your business to operate more effectively.
- **Reduce operating costs.** Inventory data collected with the HP Web Jetadmin PC printer discovery plug-in helps you make more informed forecasting decisions and facilitates supplies management.

HP Web Jetadmin PC printer discovery plug-in 2.0

HP printing and imaging systems help you create powerful, professional communications easily. Printers, supplies, accessories, digital solutions and services are designed to work together and invented to meet your business needs.
